

Champions Together -In The Middle- School Assembly

Changing School Cultures for the Better

The **Champions Together School Assembly** is a unique, timely and engaging program that is being brought to high schools throughout the state courtesy of the **Indiana High School Athletic Association** and **Special Olympics Indiana** partnership--**Champions Together**.

Change the culture of your school by letting your students hear the inspiring story of a **Special Olympics athlete** in the context of promoting **awareness, acceptance, respect, anti-bullying and inclusion** of all persons with intellectual disabilities—including the students with special needs that are in your building. How would the students in your school currently answer the simple question that is asked by those who feel ignored and left out? **“Can I play too?”**

Craig Tornquist, a professional comedian who has delivered more than 3,000 performances in schools across America, will act as emcee. Craig will interact with students from the audience while issuing the challenge to become involved in **servant leadership** and **inclusion** as a way of giving back to their schools and communities—**all with a smile!**

In the end, the uplifting message is that **servant leadership changes lives for the better**. And every student CAN make a positive difference.

YOU can make a difference by bringing this assembly to your school. A limited number of assemblies are still available. Sign up now!
